

Singetreffen - Music Meeting 2014

28. May - 01. June 2014: in Lützensömmern / Germany

Time has come...

There will be lots of international guests coming from Poland, France, Morocco, Ukraine, Belarus, Bulgaria and Germany to Lützensömmern for our Singetreffen 2014.

Again we will make music together. It's an equal exchange of giving and taking. Everybody takes part. Everyone has the chance to offer Workshops and equally participate in workshops.

The commitment is voluntary, it's not profit orientated.

The guests who have travelled a long way, as well as those suffering ill health, will sleep in the house, the others in tents in the garden. And then you can make music. Singing and dancing. Getting to know people and languages.

A targeted idea is certainly the respect for each individual person and their creativity, especially regardless of age and experience. Whoever wishes to sing, dance, or make music, has the right to do so, no matter how good or bad it is. There may be suggestions for improvement, but no censorship like in school or exclusion like in television shows. The Workshop "burping" organized by children for children is for example still in our memories.

A high priority is to do things yourself, so don't just watch and listen, but sing, play the drums and dance along and learn something from it. You really only own the songs that you know by heart - in text and melody -. It is a cultural treasure that remains for a lifetime; in fact, it gains value, because with each song and association, we are connected to pleasant experiences, situations and above all people.

We hope that the Music Workshop has a knock-on effect.

Made by the French concept of knowledge sharing on reciprocity, it refers to the qualities of inter-cultural and international exchange that has (not only) allowed the creation of a European network.

The mutual knowledge and understanding will certainly serve a peaceful coexistence.

The initial idea of the Music Workshop 'Liedgut Ost' with 'Liedgut West' still holds true after 23 years of unification.

Each group will participate in the international brunch and will support the kitchen staff. There will be only vegetarian food as we have agreed to this in policy in our association.

In case you would like to come earlier with your group and spend some days in Frankfurt, Berlin or anywhere else in Germany please feel free to contact us.

We are looking forward to seeing you. Feel free to get in touch!
